IRONMONGERY SCHEDULING

SPECIFICATION SERVICE

- Using your client's functional and aesthetic requirements, we will produce an ironmongery specification for your building project.
- We ensure all of our products are fit for purpose and achieve the relevant standards, including fire resistance and accessibility.
- Our extremely competitive pricing is partnered with high quality customer service, from specification stage through to after-sales service.
- Contractors will also benefit from our UK wide delivery service and the packing of the products into labelled 'door packs', so they know exactly which items are being fitted to each door.
- If you are an architect or contractor who is tired of being let down by your current ironmongery supplier, please get in touch by emailing sales@mitchellsironmongers.co.uk or give us a call on **01623 650065** and ask for contract ironmongery.
